# **FSI-S00-000 SADDLE TYPE FLOW SENSORS**

Creative Sensor Technology expands its flow sensor offerings with a new saddle type flow sensor available for 3 inch and 4 inch PVC pipe sizes.

S Series sensors include the mounting saddle. Sensor depth and alignment are preset. No measuring tools and alignment rods are necessary. Simply drill a 1 3/4 inch hole in the pipe and attach the two halves of the saddle.

S Series sensors utilize the same insert and retaining nut as our tee type sensors.

**FLOW RANGE: 0.25 to 12 fps**

**3 inch — 6 to 300 GPM  
4 inch — 10 to 480 GPM**

**PRESSURE RATING: 150 psi @ 90° F.**
